

Kyy Games – Fact Sheet

Kyy Games is an independent game development studio located in Tampere, Finland. It was set up in May 2009 by a group of game industry veterans. From the beginning, the main focus of Kyy Games was the smart device market – initially iPhone and iPod Touch, and more recently also iPad and Android.

Currently Kyy Games is focusing on *Cabals: The Card Game*, a revolutionary new online trading card game for iPhone, iPad, Android devices, and browsers. It re-invents the genre with the introduction of a gameboard and an original game world that is inspired by different esoteric traditions. *Cabals: The Card Game* is free to download and play, and it becomes available in November 2011.

Before *Cabals: The Card Game*, Kyy Games has released two titles. *Legends of Elendria: The Frozen Maiden* combines tower defence gameplay with roleplaying elements for great effect, offering the gamers the best of both worlds, and colorful and whimsical *Cooties: The Revenge of the Appendix* is a fast-paced chaos management game for all ages.

The experience and expertise of Kyy Games is also available for subcontracting and other business opportunities.
